

October 9, 2007

Douglas Ford, a Digital Consulting Services employee presented an award to the DCS Management Team in recognition of its support to Doug and his commitment to the US Navy reserves.

Commander Ford was the Officer-in-Charge of Defense Reutilization Marketing Services (DRMS) operations for Central Asia. Doug was deployed for six months in 2007 in Afghanistan, and he had been previously deployed in Iraq for six months. DRMS is part of the Defense Logistics Agency.

It is a common practice to present flags that have been flown over the U.S. Capitol as tokens of appreciation. A variant of this custom is the presenting of U.S. Flags that have been flown over American bases in combat zones, again as tokens of appreciation.

The flag presented to the DCS management team was a little different in that it was loaded onto an AH 64 Apache Attack Helicopter and carried on an actual combat mission in Eastern Afghanistan. It was presented to the DCS Management Team as a token of appreciation for the support provided to employees who have been recalled to military service to support the Global War on Terrorism.
